**CROSSROADS
COMMUNITY
VENTURE**

Crossroads Community Venture (CCV) is an open referral, social enterprise scheme for adults with learning disabilities. CCV offers employment training and support placements with regular access to a working environment to help those with learning difficulties become more independent.

CCV can help adults with computer skills, record keeping, administration skills, stock control, post and packaging, teamwork skills and customer service.

WHAT WE DO IN CCV

- The project begins with a 12 week trial period in which specific goals are set based on each individual.
- Regular assessments monitor progress and targets are reviewed and developed to ensure each individual's full potential is reached.
- After 12 weeks the trial period is either extended or assistance is given with seeking employment. Targets are adapted to meet any new goals.
- Individuals will be taught interview techniques and how to build a CV and transitional support will be provided upon employment. Gradual withdrawal of support is given to create a more successful transition.
- Links with local employers, other voluntary agencies and Disability Employment Services gives individuals access to work-based placements and training opportunities.

STEAM TEAM

Steam Team is a social enterprise set up by Crossroads to meet the needs of adults with learning difficulties looking for meaningful employment.

Steam Team run a convenient local ironing service with prices starting at 75p per shirt. Drop off and collection is from our main office at Eden Business Park.

For more information about our Steam Team service please call 01624 670383 or email ccv@crossroadsiom.org.
